

Yushi Cui

SOFTWARE ENGINEER INTERN · FULL STACK DEVELOPER

Auckland, New Zealand

+64 22 071 2250 | realYushi@gmail.com | realYushi | yushi-cui-6043aa285 | Permanent Resident - No visa sponsorship required

Professional Summary

Second-year Computer Science student with professional full-stack development internship experience and a passion for problem-solving in collaborative environments. Successfully delivered production-grade solutions at HALO Systems while maintaining top academic performance (GPA 8.08/9.0). Demonstrates strong analytical skills, willingness to learn, and proven ability to work effectively in fast-paced tech environments. Passionate about building technology that creates positive societal impact.

Experience

HALO Systems by Tag IT

Auckland, New Zealand

SOFTWARE ENGINEER INTERN

Dec. 2024 – Feb. 2025

- Collaborated with cross-functional teams to engineer and deploy a production-grade HMI Dashboard using Vue.js and TypeScript, enabling real-time monitoring of agricultural systems.
- Solved complex performance challenges by implementing client-side data filtering, improving dashboard performance by 40%.
- Applied analytical problem-solving skills to architect Python backend services for efficient real-time sensor data processing from multiple locations.
- Demonstrated learning agility by implementing geospatial visualization using Mapbox and GeoJSON for intuitive user experience.
- Enhanced team efficiency by developing a reusable SVG-based component library, reducing development time by 60%.

Costas Taverna Greek Restaurant

Christchurch, New Zealand

CHEF DE PARTIE

Jun. 2019 – Nov. 2022

- Led collaborative team of 5 kitchen staff in high-pressure operations, demonstrating leadership and teamwork skills.
- Applied analytical approach to improve kitchen efficiency by 25% through workflow process optimization.
- Developed strong problem-solving abilities and attention to detail in fast-paced environment.

Projects

Full-Stack Todo List Application

Github Repo: View

PERSONAL PROJECT

2024

- Independently learned and applied modern technologies including React, TypeScript, .NET Core, and SQL Server.
- Implemented robust CI/CD pipeline using GitHub Actions and Azure, achieving 99.9% API uptime.
- Demonstrated problem-solving skills by reducing deployment time by 70% through automation.
- Applied software quality assurance practices and modern development methodologies.

My Recipe Book: Full Stack Web Application

Github Repo: View

PERSONAL PROJECT

2025

- Showcased innovation and technical versatility by developing comprehensive recipe management system.
- Applied full-stack development skills using React Router, Node.js (Express.js), and MongoDB.
- Demonstrated learning mindset by integrating diverse technologies: web scraping (Puppeteer), rich text editing (Milkdown), and containerization (Docker).
- Implemented modern development practices including Firebase authentication and comprehensive testing with Vitest.

Education

Auckland University of Technology

Auckland, New Zealand

BACHELOR OF COMPUTER AND INFORMATION SCIENCES

Jul. 2023 – Jul. 2026 (Expected)

- GPA: 8.08/9.0
- Official Transcript: Available upon request

Skills

Programming Languages	Java, JavaScript/TypeScript, Python, C#
Frontend Frameworks	React, Vue.js
Backend Technologies	Node.js, .NET Core, Python
Database & Cloud	SQL Server, MongoDB, Azure, Firebase
Development Tools	Git, GitHub Actions, Docker, Agile methodologies
Additional	API development, Testing frameworks, Linux

Certifications

Microsoft Azure AI Fundamentals (AI-900), 2024

Interests

- **Problem Solving:** Regular participant in coding challenges and technical workshops, with focus on collaborative learning environments.
- **Technology & Professional Development:** Active participant in software development communities, focusing on emerging technologies and best practices.
- **Continuous Learning:** Pursuing additional certifications in cloud computing and software architecture to support fast-paced tech environments.
- **Innovation Projects:** Developing garage projects that demonstrate hands-on technical skills and creative problem-solving.
